ROLL ON HONOR NO. 14.

The Quartermaster General has just published a list of the names of a portion of the United States soldiers who died in rebel prisons during the war, being the roll of honor No. 14. This record contains the names of about twelve thousand Union prisoners, or all which could be obtained not published in previous rolls of honor. From many of the Southern prisons no rolls have been obtained, they having been destroyed or secreted by keepers at the close of the war. The rolls received were at best very incomplete, for which reason the cause of death appears for only about one-half the number deceased.

[By Telegraph to the Pittsburgh Gazette.]

RICHMOND, June 6.—Gen. Stoneman has issued orders discontinuing the military sub-district of Petersburg, which he lately commanded, and ordered all business to be transacted through headquarters here.

The examination before the Military Commission of Judge Meredith, of the Circuit Court, for alleged misconduct in unlawfully admitting certain aliens to the rights of citizenship, and causing full naturalization papers to be issued to them, continues to-day. Gen. Granger is President of the Commission. The Democrats claim that the arraignment of Judge Meredith is a measure devised by the Radicals to curtail the number of foreign voters here. The ex-rebels are very indignant that he should be brought before the Military Commission and appealed to General Stoneman, but he refused to suspend the investigation. Meredith admitted many persons to citizenship without any proof being required as to age, residence, &c.

FORTIETH CONGRESS.

[By Telegraph to the Pittsburgh Gazette.]

WASHINGTON, June 6, 1868.

SENATE.

Secretary Gorham was sworn in.

The Senate proceeded with the consideration of the bill for the admission of North Carolina, South Carolina, Louisiana and Georgia.

A lengthy debate ensued, n which Mr. TRUMBULL interrupted to make a report from the Committte of Conference on the Arkansas bill, saying it might have some influence on the decision of the bill. He explained that the Committee recommend agreement to the bill passed by the House, with a slight verbal amendment in the preamble, and a further correction. As it passed the House, the bill provided as a fundamental condition that no change of the Constitution should be made depriving any citizen or class of citizens of the right of suffrage recognized in the Constitution. The Committee had added the provision that the Constitution may be changed as to time and place of residence as the people might think proper, also as to the right of foreigners to vote so as to acquire citizenship hereafter if they choose.

After the report had been read, Mr. DRAKE called attention to the omission, by a clerical error, of the word "all" before the vords "the inhabitants," which had been agreed upon by the Committee.

Mr. TRUMBULL withdrew the report for the purpose of correction.

The debate then continued.

Mr CONNESS made a lengthy speech in favor of admitting Alabama, denouncing Mr. DOOLITTLE as a deserter from his friends for the Presidential flesh pots.

Mr. MORTON rose to say he had become convinced he was mistaken yesterday in concluding the opposition to the admission of Alabama was so strong as to imperil this billby including Alabama in it. He had therefore changed his mind and would vote for the amendment.

The report of the Conference Committee on the Arkansas bill was then presented as corrected and agreed to.

Mr. FESSENDEN moved an Executive session, but withdrew the motion at the instance of Mr. WILSON, who made an unavailing effort to get up the bill to continue the Freedmen's Bureau one year from July next.

Mr. WILSON then renewed the motion for an Executive session.

Mr. TRUMBULL interrupted to express the hope that Senators would come here on Monday prepared to pass the pending bill.

The Senate then went into Executive session and soon after adjourned.

HOUSE OF REPRESENTATIVES.

The bill to amend the act granting public lands to Wisconsin for railroad purposes was passed. It has reference to lands of the old Lacrosse and Milwaukee railroad.

The bill to grant certain island to Wisconsin as swamp lards, passed.

The House agreed to hold no evening session.

It was also agreed that a reception be extended to the Chinese Embassy on Tuesday next, in the hall of the House.

A large number of bills from the Committee on invalid pensions were reported and passed.

Mr. BOYER, from the Military Committee, reported a joint resolution amendatory of the act of July 26th, 1866, for the relief of commissioned and non-commissioned officers and privates who were promoted while in actual performance of duties of rank to which they were commissioned, but were prevented from being mustered in on account of their failure to receive their commissions without any fault of their own; also, a bill allowing persons who were drafted and unlawfully compelled to pay commutation money to file their claims to have the same refunded within two years, and repealing existing legislation which prohibits this being done. They were ordered to be printed and recommitted.

Mr. PERHAM, Chairman of the Committee on Invalid Pensions, made a statement in reference to a numerous class of cases of applications for pensions where proof of the death o soldiers could not be made. Many such sodiers had been last heard of in rebel prisons, some on the battle field and some in hospitals. The Pension Department, he said, had recently established a rule that t shall be held sufficient if proof can be made that the soldier disappeared under circumstances which would lead to the presumption of his death, and that he has not been heard of for two years, and mentioned this so that petitioners might know that instead of applying to Congress they should apply to the Department which would grant pensions under this rule.

The House went into Committee of the Whole, and proceeded with the consideration of the tax bill, the question being on Mr. JENCKES' motion to amend the 22d section by taking away from the Assessor the right to add on penalties.

After some discussion, the section was amended by striking out the word "penalties" and inserting in lieu of it the words "additional per cent. for neglect or refusal to make returns."

No amendments, except in matters of detail, were offered to sections 23d, 24th, 25th and 26th.

Progress was made without any amendment, save as to matters of detail, to section 53d, when the Committee rose.

Mr. BLAINE, from the Committee of Conference on the Arkansas bill, made a report. While voting on it, the hour of five o'clock arrived, and the SPEAKER, in accordance with unanimous agreement previously had announced, the House adjourned.

National Board of Trade.

[By Telegraph to the Pittsburgh Gazette.]

PHILADELPHIA, June 6.—The National Board of Trade met this morning, President Frederick Fraley in the chair. Rev. Dr. C. Stevenson led the members in prayer. Several members recorded their votes for the Constitution and for President by permission, they having been absent yesterday afternoon.

Mr. Dorr, of Buffalo, moved a reconsideration of the vote on the Constitution yesterday, and proceeded to speak of the great commercial cities on the Lakes, their claims for representation, &c., and he asked that an addition should be made to the Board of Vice Presidents, including one or more representatives from those great American marts, especially St. Paul, Toledo, Oswego and Buffalo.

Mr. Nazero, of Boston, thought the motion out of order.

Mr. Randolph thought the motion to reconsider out of order, but believed the Board had a right to amend the Constitution, and hoped the amendments proposed would be adopted.

The President decided a motion to amend the Constitution to be in order, and no appeal was taken.

Mr. Walbridge, of New York, made an eloquent speech in behalf of the proposed amendment. He thought that Toledo would thirty years hence rival Chicago as a great grain entrepot, and therefore entitled to respect in this body.

Mr. Munn, of Chicago, hoped that the motion would be amended so that the Executive Council be increased to twenty, with one vacancy for a representative from the city of San Francisco when elected to this body.

Amid excitement and cheers, Mr. Boynton of New York, resigned the Vice Presidency given to his city, in favor of Buffalo, which Mr. Dorr declined.

Mr. Ingersoll, of St. Paul, hoped that the Northwest would be remembered — both Minnesota and Iowa.

On motion of Mr. Nazero, of Boston, the subject was laid on the table by a vote of thirty-three ayes to twenty-one nays.

Mr. Randolph, of Chicago, moved that the first annual meeting of this Board be held next December in Cincinnati.

Mr. Davison, of Cincinnati, tendered an invitation to the Board to meet in that city. Cincinnati was then selected by a unanimous vote.

Mr. Blow, from the Special Committee on Great Commercial Interests and Questions, made a report covering the following resolutions: In favor of an early resumption of specie payment; that no bridge be erected over Western rivers of less than 500 feet span; in favor of the early completion of the Pacific Railroad; asking for a review of all our commercial treaties; asking for the removal promptly of all obstructions in the lakes; asking Government to further aid the Kansas Pacific Railroad, in order to complete it to Santa Fe; asking for a reduction of the whisky tax to fifty cents per gallon, as the present tax cannot be collected without fraud.

This report created a great deal of discussion, and Mr. Blow finally asked leave to withdraw the first three resolutions, but permission was not granted, and all were postponed except the last, which was taken up and considered. This resolution was unanimously adopted.

A resolution of thanks to the Mayor and Common Council of Philadelphia for the banquet last night was passed.

Mr. Davis, of Cincinnati, presented a paper covering a bill for Congress to establish the ceutal system. Referred to the Executive Committee.

The paper of Mr. Fraley on direct importations was taken up and the resolution referring the matter to Congress for action was adopted.

RICHMOND, June 7.—Parties to the recent duel between Col. Reed and Major Porter have been placed under arrest by General Gordon Granger. The affair was brought to official notice through a letter to the editor of the *Southern Opinion*, signed by them, threatening to hold him personally responsible if he commented on the duel.

Died of Heart Disease.

CINCINNATI, June 7.—Col. Leonidas Metcalf, son of the late Gen. Metcalf of Kentucky, died in this city to-day of heart disease. He was Colonel of the Tenth Kentucky Cavalry in the war.

Fire at Worcester, Mass.

[By Telegraph to the Pittsburgh Gazette.]

WORCESTER, MASS., June 7.—A fire at Newton, Linn Falls, last evening, destroyed Wales' hotel and stable, and adjoining houses. The origin of the fire is unknown. Loss is $15,000, partly insured.

Hoosac Tunnel Appropriation.

[By Telegraph to the Pittsburgh Gazette.]

BOSTON, June 6.—The bill appropriating five million dollars to complete Hobsac Tunnel passed the Senate to-day. It had previously passed the House.

Rivers and Weather.

[By Telegraph to the Pittsburgh Gazette.]

LOUISVILLE, June 6.—River rising slowly with 8 feet and 3 inches in the canal. Weather clear and warm.

—A Montreal (Canada) special states that seven hundred soldiers started for St. John Friday night last, but it is not stated for what purpose. Three pieces of artillery belonging to the Fenian organization have been shipped to Chateauquar Four Corners, and this fact makes it apparent that the raid will take place from that point.

NIGHT.

So soft a night was never made for sleep,
But for the working of the finer sense
To every murmuring and gentle sound,
To subtlest odors, pulses, visitings
That touch our frames with wings too delicate
To be discerned amid the blaze of day,
Surely these flowers keep happy watch—their breath
Is their fond memory of the loving light.
I often rue the hour I lose in sleep;
It is a bliss too brief, only to see
This glorious world, to hear the voice of love,
To feel the touch, the breath of tenderness,
And then to rest as from a spectacle.
I need the curtained stillness of the night
To give through all my happy hours again
With more selection,—cull them quite away
From blemished moments. Then in loneliness
The face that bent before me in the day,
Rises in its own light, more vivid seems
Painted upon the dark, and ceaseless glows
With sweet solemnity of gazing love,
Till like the heavenly blue it seems to grow
Dearer, more kindred, and more cherishing
Mingling with all my being. GEORGE ELIOT.

—The Boston *Post* heads its campaign puff with "The time has come for all who love their country to band together against the Jacobins." —The Prescott (Wis.) *Journal* says that there are no fish in the Chippewa River, and accounts for it thus: "This singular phenomenon was accounted for by the presence of so much saw-dust, which, penetrating the eyes of the fish, rendered them blind, and caused them to butt their brains out against snags and like obstructions to navigations."

—The retention of Petroleum V. Nasby in his office of post master has troubled many an ignorant Democrat, who has chafed under his homely sayings, but we scarcely thought it possible for even a *Democratic* editor to be so ignorant as not to understand the case as it stands, yet an Indiana paper gravely and in perfectly good faith announces to its readers that the President has removed Mr. P. V. Nasby from office and appointed Joe. Bigler in his stead; it then comments on the fact that Nasby was too great a fool even for a post master.

THE dimensions of the Hudson river suspension bridge are to be as follows: Clear span, 1,600 feet; length of bridge between the towers, 1,665 feet; total length of bridge, including approaches, 2,400 feet; height of bridge above high water, 155 feet. Lines of broad and narrow gauge for railroads. Highways for general travel. Load that would break the bridge, 25,171 tons. The bridge will carry at one time 32 passenger cars. The bridge would carry safely 34,500 people and a train of 60 locomotives, if they could all be on it at once. Fifty-three locomotives and 18,000 people would fill it. There are to be 20 cables in four systems. The cables will contain 371,195,850 feet of steel wire, or about 70,302 miles. Total weight of iron and steel in the bridge 17,005 tons. Total amount of masonry, 58,084 cubic yards. Total suspended weight, 9,651 tons. Height of towers above water, 280 feets The bridge will leave the waterway of the river untouched.

THE GROWTH OF PHILADELPHIA.—The promice given at the early part of the building season of a large growth of Philadelphia this year will be fully realized. In the month of May the foundations of 537 dwelling houses were laid, 6 of which are to be four stories, 320 three stories, and 211 two stories in height. There were also commenced the erection of 4 churches and a college, and 13 storehouses. The total number of structures for which permits were taken out is 606; the number to which alterations and additions are to be made is 144, making 750 in all.

JUDGE BLATCHFORD, of the United States District Court, has recently decided that a person who has been acting for six months as the agent and attorney of another, with a compensation of half the profits, has been "carrying on business for six months" under the eleventh section of the Bankrupt law of 1867, and is entitled to the benefits of that act. The petitioner had a regular power of attorney, and kept an office with the principal's name on the sign.

RIVER NEWS.

The Allegheny river rose steadily all Saturday night and yesterday, and was still swelling yesterday afternoon with nearly nine feet in the channel. The Monongahela has risen about two feet at this point, but it is mainly backed water. As the recent rains however, appear to have been general, we should not be surprised to see a rise in this stream. We had a very heavy rain storm on Saturday afternoon, accompanied with thunder and lightning, and it has been cloudy and unsettled ever since, with indications of more rain.

The arrivals since our last report include the R. C. Gray, from Cincinnati; Bellevernon, from St. Louis, and Silver Cloud, from St. Paul. There were no departures aside from the regular packets.

The St. Marys, from Cincinnati, was due last night, and will return as usual this evening at 5 o'clock. She is a large and elegant side-wheeler, and is in charge of experienced and courteous officers.

The Maggie Hays, Captain B. C. Martin, is filling up steadily for St. Louis, and will be the first packet out for that point.

The Mary Davage and Barges, with 950 tons of Pittsburgh manufactures, arrived at Cincinnati on Friday en route for St. Louis.

The following boats, among others, were in port yesterday: Silver Cloud, Wauanita, Lorena, Maggie Hays, Kate Robinson, R. C. Gray, Bellevernon, Armadillo, Glendale, Glasgow, Camelia, New York, Ingomar.

A St. Louis telegram, under date of Friday, says: The river has swelled some tnree feet here. Heavy rains above. Swelling at Dubuque. The Missouri is rising lively at Omaha. The Henry Adkins and Mountaineer arrived at Benton; the Octavia, Ida Stockdale and Peninah, on the 31st. The Miner, Niles and St. Luke left Benton for St. Louis on the 31st.

A telegram of the 4th, from Omaha, says the Cora, the first mountain steamboat from Fort Benton, passed down at noon. She passed the Henry Adkins above Muscle Shell; met Bertha above Milk river; found Amelia Poe wrecked in eight feet water below Milk river, boat and cargo a total loss, except eight tuns merchandise, saved in a damaged condition.

The Cora took aboard the officers and crew of the Amelia Poe.

On the evening after the sinking of the Poe, three hundred Indians, under Red Stone, came to the wreck and demanded the whisky saved, but were refused. They fired some arrows at the watchman during the night and left early in the morning.

Barges and steamers are taking flour to New Orleans at twenty cents per barrel, and corn at fifteen cents per sack. Warm competition is threatened between steamers and barges.

The freight list of the Amelia Poe was insured for $10,000.

We clip the following from the Cincinnati *Commercial*, of Saturday: Capt. P. K. Barclay telegraphs that the steamer Champion, Capt. W. A. Gregg, bound from St. Louis for Cincinnati, with a full cargo, sunk at the foot of Chenault's Read, near the wreck of the Curlew, yesterday noon. The water was up to her wheel astern, while her bow appears to be resting on a snag. The Morning Star was alongside the sunken Champion when the Rob Roy passed up. The Champion is owned by Capt. Gregg, and others, of this city, and partially insured.

The W. F. Curtis and St. Marys left Cincinnati for Pittsburgh, and the Belle was advertised to leave on Saturday.

The towboats Boaz and Lake Erie, came up over the falls at Louisville on Thursday.

The towboats Alps and Fred. Wilson arrived at Louisville from Pittsburgh on Thursday with tows of coal. The Wilson left the same day for this port.

Captain Dave Hanev telegraphs Captain Hiram Hazlett that the Peninah arrived at Fort Benton, May 31, and would leave June 2d on her return. The Peninah left St. Louis April 4th, with a cargo of 264 tons, of which 77 tons were army supplies. It is to be supposed that the steamers Ida Stockdale and Huntsville have also arrived at Benton, as, when last heard from, both were ahead of the Peninah.

Cabin passage from St. Louis to St. Paul is fifteen dollars.

An exchange says that thieves and pickpockets are becoming quite prevalent on the western rivers, and scarcely a boat arrives that some one or other has not been robbed on the trip. Passengers should keep a sharp look out for these light fingered gentry, while the officers of the boats should use every exertion to overhaul the rascals.

The aggregate tunnage of the vessel owned by citizens of Cairo is 317 tuns; aggregate value, $112,500; annual working expenses, $228,400; annual cost of repair, annual cost of insurance effected, $8,280; annual aggregate receipts, $252,170.

A Helena letter, dated May 15th, says: "An express sent by the clerk of the steamer Cora arrived at Benton on the 12th instant. The Cora arrived first at Dauphin's Rapids, reaching there on the 9th. She endeavored to get over, and failing, unloaded a portion of her freight, but was still unable to get up, and dropped down to the foot of rapids, awaiting a rise. The river was rising at Benton on the 13th, and Sun river raised at the crossing for the thirty hours preceding Thursday, at 4 p.m., 15 inches.

An article in a Montana paper is as follows: "In all the higher mountains the storm has fallen in the shape of snow, even extending as low as the head of Grizzly, where the snow was four inches deep yesterday morning. From parties who crossed the main range yesterday, we learn that they encountered six inches of snow on the mountains, with the heavens white with the descending vapor. From all sources of information, we are led to believe that the rain and snow which have visited our valleys and mountains duging the past two days, making glad the hearts of our ranchmen and miners, have been equally kind to the rest of the Territory."

About one hundred tuns of the Government freight sunk on the steamer Bridgeport will be saved.

The St. Louis *Republican*, of Friday, says: Business was quite active on the wharf, but more especially so around the A. & M. M. S. S. wharfboat, where the famous Great Republic was receiving at quite a lively rate. It is very singular that the owners and managers of New Orleans steamers will persist in allowing the present discrimination in rates in favor of the Barge Line, the more especially as it is claimed by the managers of the latter that the barges can carry freight to New Orleans in as quick time, and deliver it in as good condition as by steamboat. We think it would then be but the proper course for them to be placed on the same footing, and not allow them by a discrimination in rates to secure the bulk of the freighting business, and thus get rich at the expense of steamboats. If, as they claim, they can carry freight on the same terms as steamboats, why then not give them a trial? So away with this discrimination in rates, and if the barges will persist in claiming it, let them have it at their own expense. "Every tub stands on its own bottom" is our motto.

SECURITY AND COMFORT FOR THE TRAVELING COMMUNITY.

J. B. HARRIS' SAFETY FIRE JACKET,

Car Heater and Moderator,

For SMOKE AND HOT AIR FLUES, dispensing with the use of Stoves and Fires in or about the Passenger or Baggage Cars, with the attachment to graduate the heat to any temperature that may be desired without the possibility of firing the car or cars to which the Jacket may be attached.

Having obtained of the United States Letters Patent for a Safety Jacket which is warranted to resist the most intense heat that may be applied to it in the position and purpose for which it is intended. It is a sure protection from accidents by fire, originating from defective flues, or where iron pipes are used as conductors for smoke or heat. It is applicable to all piping that may become overheated, and is warranted to give perfect satisfaction where wood or other combustible material may be placed in close proximity thereto. I am now ready to apply my invention to stores, dwellings, factories, ships, steamboats, railroad cars, &c., wherever pipes as conductors are made dangerous by being overheated and security desired. I will sell, on application, right to manufacture or to use the above invention; also, territorial rights, to such as may wish to engage in selling privileges, either by State or county.

GOLD closed in New York on Saturday at 139⅜.

COPPERHEADS, who declare that the GAZETTE and all the Radical organs are opposed to protecting the industry of the country, *know* that declaration to be false. These reptiles are not usually blind until August, but the infirmity appears this year prematurely.

THE Registration Law has been fully argued before the Supreme Court at Philadelphia, which has now adjourned to July 1st, when a decision will be promulgated. The Constitutional question has been thoroughly examined, and the decision will probably cover this and all the other mooted points.

WE WITHDRAW our proposition of Saturday, to offset the special election in the Gallia judicial district of Ohio against the Copperhead success in Oregon. The majority of the latter is said to be only six hundred,—rather a contemptible result for the tremendous efforts made by the party, backed by the most unscrupulous use of the President's patronage. We shall encounter no such difficulties when, under GRANT'S administration, we elect a good Republican Legislature for that State in 1870, for the purpose of returning Senator WILLIAMS to Washington for another six years.

A COTEMPORARY very sensibly suggests that, if Congress disposes of the Internal tax question, which, until a day or two since, was expected to consume weeks in debate, by disposing summarily of whisky and a few other articles, leaving the main measure to go over to the next session, it may now find time to take up the tariff question. At least, if no broader measure be adopted, it would be very easy, by a bill of twenty lines, to make a straight, horizontal addition, of say ten to twenty per cent. to the existing customs-duties, and let matters stand at that until Congress re-assembles. The suggestion is worthy of consideration.

IT is officially stated that both of the Presbyterian Assemblies have approved, without alteration or amendment, the basis of union reported by the Joint Committee, and each directed that it be sent down to the Presbyteries for their action during the ensuing year. Although the New School (just about to adjourn) could take no action for want of the requisite number of members present, though the call of the roll showed a large majority in favor of the proposition, yet it re-appointed the same Committee, "to use all appropriate means to promote and secure intelligent action upon the plan by the Presbyteries. The proposed terms of reunion will be voted on, during the year, by both bodies, and so soon as three-fourths of the Presbyteries in each vote affirmatively for the basis, the union is *ipso facto* accomplished."

THE Sunday organ of the Democracy, the *Leader*, foreshadows the action of the forthcoming Democratic Convention. It hints that General J. B. SWEITZER, the representative soldier of that party in this county, will be shelved as an aspirant for Congress, and Mr. BURT, of Birmingham, nominated, in order to catch the workingmen's votes. This move will avail the opposition but little, as the laboring element will not, at this late day, be cajoled and flattered into the support of a party which has ever been regarded as inimical to their best interests, and which has ever prided in being the aristocratic body politic of the country. The intelligent laboring classes will not be duped by any coalition formed by shrewd and designing political tricksters at this late hour to defeat the gallant NEGLEY, who, by nature, instinct and choice, belongs himself to the army of working men.

THE GAZETTE declares that a high protective tariff is to longer a necessity, and that all that is needed is a revenue tariff with incidental protection. —*Leader*

The *Leader* is in error, no such declaration having appeared in the GAZETTE, which holds, as it ever has held, steadfastly to the doctrine of national protection for the interests of national labor, and that the present tariff operates, incidentally or otherwise, as an injurious discrimination against leading branches of the manufacturing industry of Pennsylvania. This injustice will be corrected under the new bill which has just been agreed upon by the Ways and Means Committee, and which will become a law at the next session of Congress. It was especially desirable that this bill should have been reported at an earlier day, so that it could have been discussed and adopted before the adjournment of the present session. This has been found to be impossible, the bill, a copy of which is before us, and which would fill nearly two pages of the GAZETTE, having engaged the close attention and faithful labors of the Committee for over two months in its preparation, and it has been completed at the earliest day consistent with the importance of the subject and the comprehensive plans of its framers. The necessity which appears to defer its consideration to another session a few months hence, is depiored by its friends, but seems unavoidable. No candid or honorable opponent of protection will misrepresent this action by impeaching the sincerity of its supporters. They may understand that we propose to make a sure thing of this measure at the earliest day that promises success. Of the new bill the New York *Tribune* says:

A careful examination of its provisions will show that it aims largely to substitute specific for ad valorem duties, thereby lessening the temptations and the opportunities to swindle the government by the use of fraudulent invoices. It also increases the tariff on some articles, the continued heavy importation of which, under the duties now imposed, though they are articles which we have all the natural resources and ability to produce, shows that the present law has failed to protect their production by American industry and capital. With rates of taxation and of wages exceeding those to which the industry of any country in Europe is subjected, it cannot be expected that the products of foreign labor can be allowed to throw out of our markets the products of our own labor. This would only result in obtaining a few months of low prices for our crops as well as for our manufactured goods, with the certainty of breaking up those industries on which we must necessarily depend for the greater part of our supplies as well as of our markets.

TO BE REMEMBERED---NOT FORGOTTEN.

Why is it that the Democracy are so anxious that the old political issues growing out of the rebellion should be ignored this year. They insist upon it that these issues are things only of the past, and that the people should forget how much Northern Copperhead sympathy, cherishing the rebellion, had the effect to embarrass and cripple the vigor of the friends of the Union, encouraging the rebels not only by words but often with material aid more substantial in men and money, endangering the success of the Union cause, and actually prolonging that sanguinary struggle. They want us to forget that their last National Convention stigmatised the effort to save the Union by arms as a failure. They want us to forget also, no doubt, our dead brothers, fathers and sons who gave their lives to uphold the flag of the Republic. They want the maimed veterans, who wore the blue, to forget that they were born with whole bodies, like other men; and to forget the bloody fields where the limbs they lost were thrown aside to decay. They want us all to forget that the rebels were Democrats before they rebelled, and that they remain Democrats since they were conquered, and that they have renewed their old alliance with the Copperheads here, to obtain these same old ends by peaceful means, or, those failing, by threats of a second armed revolt.

Yes, it would gratify Northern Democrats to have all these things forgotten, but they won't coax very many of the friends of the old flag to bury these shameful memories in oblivion. And, never since LEE surrendered, has it been more needful to keep these memories alive than now.

THE CHASE DEMOCRACY.

Leading Democrats at Philadelphia have called a meeting for the 10th inst., to consult upon the most effective method for the presentation of Mr. CHASE as a candidate before the New York Convention. A newspaper is reported as about to be established in Washington, edited by G. A. TOWNSEND, to promote the same object. At St. Louis a strong inclination toward him is manifested by the same party, the ultra secessionists giving him a position next to PENDLETON. On the other hand, PENDLETON'S friends at Washington don't think the movement will amount to much, and that their own candidate will have a clear majority on the first ballot. It is only the two-thirds rule which stands at all in their way. Nevertheless, the shrewdest observers are prepared to see the Copperheads all coming to the support of the Chief Justice, "wheeling into line under the banner of universal suffrage, negro equality, and the redemption of five-twenties in gold, to all of which MR. CHASE is committed." The following purports to be a synopsis of the platform on which he is to stand:

I. The States alone have the right of fixing the terms of suffrage.
II. Congress has no power to keep the Rebel States out of the Union, and its doing so is usurpation.
III. Universal manhood suffrage, and universal amnesty and restoration to political rights of all engaged in the Rebellion, are now indispensable.
IV. Speedy resumption of specie payments, so that greenbacks will be equivalent to gold.
V. No military trials in time of peace.
VI. A proper proportion of Southerners in the Cabinet.
VII. The Judiciary to be independent of Congress.
VIII. The President has full power to pardon Rebels and restore them to political rights. Congressional restriction of this power is usurpation.

THE NEW TAX BILL.

A leading provision of this bill, as reported by Mr. SCHENCK, contemplated an entire change in the administration of the revenue bureau, placing the appointments of officials in the hands of the Commissioner, and in effect making him independent of the President. This provision was so interwoven with the entire structure of the bill, that the refusal of the House, on Friday, to authorize that method of reconstructing the service is looked upon as equivalent to a defeat of the measure in its present shape. A suggestion has been made, and may be acted upon, that a new bill be introduced, very briefly amending the law as it now taxes whisky, tobacco and a few other articles, and with a decidedly better prospect of its speedy adoption by both Houses. The SCHENCK bill, now pending in the House, if not withdrawn, is regarded as certain to occupy several weeks before it could be sent to the President, who would veto it as an infringement upon his power of appointment, and that would be the end of it. The simpler bill, which is now proposed, would pass by majorities sufficient to override his objections.

WORK MUST BE DONE.

Republicans, there is work for you in Allegheny county. There is no time to be lost. The campaign has opened. The issue is made: Your national leaders have been chosen from amongst your most eminent fellow citizens; your State ticket is headed by men worthy your enthusiastic support; your local candidates are eminently qualified for the respective positions for which they have been nominated, and now it remains for you to put your shoulders to the wheel and work. Set things going in Allegheny county. The whole State looks for the grand political swell to commence here in the west, and other counties are holding back to hear what efforts we, who are pledged in advance for an overwhelming majority, are making, to ensure that political triumph in October which will only prove less brilliant than the one to follow in such rapid succession in November. The enemy is marshaling his forces. Every exertion will be made to draw voters from our ranks; every means, honorable or dishonorable, will be employed to disaffect our party. We must be on the alert to checkmate any movement made to weaken our strength, and turn it to the disadvantage of the foe. Talk will not do. We must have prompt work. Organize your Grant clubs. Let every ward and district in the county boast of its band of followers of the Great Chieftain to do effective service in the campaign we have entered. Stand by the same old flag which witnessed the complete overthrow on the field of battle of the wily and unscrupulous enemy which is to confront you at the polls. As your bullets were aimed with telling fidelity, bringing traitors to bow in suppliance, so let your ballots be cast. The civilized world watches with interest for the denial of the accepted proverb that "Republics are ungrateful." They look to see a wise, magnanimous people sustain, support and honor with the highest gift in their power a faithful chieftain who saved his country and triumphed over its enemies. Let every voter remember that he has a voice in framing the verdict and act accordingly.

THE ROLLS OF HONOR.

Section XIV of this Roll, a volume of 337 pages, has just been issued by the Quartermaster General. It contains the names of over 12,000 Union prisoners who perished by slow torture at Andersonville, Libby, Salisbury and other slaughter-houses of the rebel Southern Democracy. Be it remembered that official authority (Gen. DANA) announces that the nearly two hundred thousand names which have been thus far recorded, include not much, if any, more than half of those who were murdered. The remains of the others are still without identification. The rolls were in many cases destroyed or secreted by the rebel gaolers, so that the lists include but "a small portion of the names of those buried at the prisons in Tennessee, Louisiana, Texas, Florida, and at Salisbury, N. C., and Florence, S. C., and none at all of the names of those buried at many other places where Union prisoners were confined." And here come, as we write, the Tennessee journals with a report of the proceedings of the Democratic Convention held at Nashville on the 1st inst. Its resolutions, reported by "Hangman" FOOTE, declare, among other things, as follows:

That if the Reconstruction laws of Congress are enforced, and an election for President takes place in the Southern States, it would be a shame and a mockery, not entitled to the smallest respect, and should not be allowed to affect the result of the contest; and that the late war originated in the prevalence of extreme opinions and a disregard of the line of demarkation between the Federal Constitution and the reserved rights of the States and people; and that to restore the Government to the Democracy is the proper way to secure a return to the admirable system of checks and balances formerly existing.

All of which means that, unless the Reconstruction Laws are repealed and the government "restored to the Democracy" North and South, they will again, by an immediate rebellion, attempt to restore the old "admirable system of checks and balances" from which the Republic was redeemed by the blood and lives of nearly half a million of its sons. We need only to look at the Rolls of Honor which record their fate, to know what these doctrines and this party have already cost us. The friends of the Union are not yet inclined to forget them.

THE MISSING.

A large number of Union soldiers, last heard of in rebel prisons, on the battle-fields and in hospitals, have, no doubt, perished, leaving widows and heirs who are as justly entitled to pensions as if the proofs of death were accessible. Yet there has been hitherto no means by which their claims could obtain a legal recognition from the Pension Bureau. It was stated, however, on Saturday, in the House, that the Bureau has recently adopted a rule to grant such claims in all cases where proof is made that the soldier has been for two years unheard of, and that he disappeared under circumstances which would lead to the presumption of his death. This new regulation will meet the just claims of a large number of cases, and ought, therefore, to be generally known. The National justice to our brave defenders, though tardy, is ultimately sure.

OUR CANDIDATE FOR CONGRESS.

What is thought of our candidate, by Republicans elsewhere, is shown by the following extracts:

The Erie *Dispatch* says: "Gen. James S. Negley has been nominated for Congress by the Republican District Convention of the Pittsburgh district. His fine military reputation, great popularity, and personal merit will enable him to walk over the course and distance any and all competitors."

The *State Guard* says: General James S. Negley, Republican candidate for Congress in the Twenty-second District, is one of those men who promptly, on the breaking out of the war, offered his services to the Governor of Pennsylvania to aid in the national defence. He fought bravely during the entire struggle, and was satisfied to remain in the army until the fight was over and the victory for the Government achieved. Such soldiers are worthy of high civil honors, and the Republican party never hesitates to distribute its honors among the men who have thus earned them.

RECONSTRUCTION.

The Arkansas bill was reported from the Conference Committee on Saturday to both Houses, the Senate agreeing to the report, and action in the House being cut off by the hour for adjournment. There can be no doubt that the House will agree to it to-day, and the bill will go to the President, whose signature, we have the authority of Chief Justice CHASE for saying, will be given to it promptly. Arkansas comes back to the Union, this week, the first of the reconstructed States.

The omnibus bill, to admit the two Carolinas, Georgia, Louisiana and Florida, is under debate in the Senate, and its friends anticipate its passage to-day. The discussion hinges upon a proposition to include Alabama in the bill. Republican Senators are divided upon that question, and the vote is likely to be close. The bill then goes back to the House for its action upon the Senate amendments.

No election has yet been ordered in Virginia. The Mississippi election will be held on the 22d inst., and a very active and violent canvass is going on. The rebels have all taken the Democratic name, and are coaxing the black voters with an assiduity which would disgust Northern Democratic believers in "a white man's government." The Texas Convention assembled on the 1st inst., and will be in session perhaps for two months. But there is no reason to doubt that its Constitution may be framed and ratified prior to the Presidential election in November.

THE CHINESE EMBASSY.

Mr. BURLINGAME and his Mandarins were formally presented to the President on Friday, and the usual speeches were made. Mr. BURLINGAME stated that, of the nine ranks into which Chinese officials are classified, he was himself of the first class and the Mandarins of the second. He also made the following statement:

Mr. President, the imperial Chinese Government having within the last three years accepted the laws of nations, as they are allowed and practiced by the Western Powers, that Government has further concluded, if permitted, to enter into communication through the customary diplomatic way with the United States, Belgium, Denmark, France, Great Britain, Holland, Italy, North Germany, Russia, Spain, and Sweden. This desire of the Chinese Government is fully expressed in letters addressed to those powers respectively.

Jenkins, who was present, says: At their interview, Mr Burlingame and the two secretaries were dressed in plain black suits without any insignia. The two chief Mandarins were attired in gorgeous figured and highly-wrought silk gowns, girdled with silk and jeweled cording, and wearing sashes of their rank and office of peculiar richness and brilliancy. On their heads they wore peculiarly-shaped sundown straw hats, which were covered with a loose, flowing, deep red fringing. From the top of the center of these hats was suspended a glass ornament surrounded with jewels. Loose flowing pantaloons of colored silks, and magnificently worked silk and velvet sandals with diamond-clasped buckles completed the costume of the two chiefs; while the interpreters, who are all high officers of the eighth rank, were nearly similarly attired, the only difference being various marks of rank.

Funeral of Ex-President Buchanan.

Mr. Buchanan's funeral was very imposing. The Republicans vied with the Democrats in paying honor to the dead. New York City sent fifty Aldermen and the Mayor—a handsome contribution. Harriet Lane and her husband were at the grave, both weeping. Mr. Buchanan is spoken kindly of by every body. He was a friend to the poor, and left by his will a permanent fund to buy fuel for the destitute. His property is valued at $300,000. Wheatland was thrown open to the people, and the body was natural and dignified as in life. Mr. Buchanan's last words were: "O Lord God Almighty, as Thou wilt." He said in his latest conscious moments, that he should come back often if he could to drink of a spring in the lawn of Wheatland. As to his political fame he said he had no fears of history; that he should be fully vindicated. He left explicit directions about his tomb, and directed the inscription for it. The funeral was the largest, except that of Dr. Kane, ever held in Pennsylvania.

YOUR correspondent caught a glimpse to-day of what the Copperhead journals style the "Bastille cell" of Woolley. A nice Brussells carpet is on the floor, and the apartment is supplied with parlor and bedroom furniture to match. It is neatly arranged. While your reporter was in the room a waiter from one of the Capitol restaurants entered with strawberries and cream, cigars and wines, and the "noisome dungeon," seemed far more comfortable, and even luxurious, than most of the parlors of our first-class hotels. No one, however, is permitted to have access to the prison, except his counsel, who were in consultation with him a long time to-day.—*Washington letter.*

SENATOR FOWLER has removed his seat to the Democratic side of the chamber. He is almost entirely ignored by his old Republican friends. There is no doubt, says the correspondent of the New York *Sun*, that he, with Henderson, Ross and VanWinkle, have made up their minds to cast their fortunes with the Democracy, and that the others will go as soon as Chief Justice Chase or Gen. Hancock is nominated, and in the meantime they hope to cause a division in the Republican ranks. They might as well attempt to split a granite rock with a blade of grass.

Washington Topics and Gossip.

After three days' debate on the new Tax Bill it is evident that it will be impossible to get the House to remain in session long enough to pass it, and even in case this should be done, there is not the slightest probability that the Senate could pass it without devoting three or four weeks in debating the amendments, when it would go back to the House again for concurrence in such amendments. It is the opinion of well-informed Senators that it will take at least two months' close attention to get this bill through the Senate and House, and there is a decided feeling among members of both branches against remaining in session for this length of time. In view of this it is thought that in a few days a special clause will be taken up, which will relate principally to the tax on whisky and tobacco, and passed, and then allow the main portion of the bill to go over until the next session.

The Impeachment Managers have succeeded in tracing the sum of sixty thousand dollars to the doors of a certain western Senator, in the shape of two drafts of thirty thousand dollars each, but they have since discovered that the drafts were cashed in the name of another party or parties, some of whom cannot now be found.

Delegates from the District of Columbia to the New York Convention were chosen to-day. If they should be allowed to vote, their first choice would be Johnson. Shoals of Democratic politicians are in the city. The feeling for Chase as the New York nominee seems to gain favor with them very rapidly.

It is stated by friends of Senator Grimes that it is the intention of that gentleman to enter suits against the New York *Tribune* and Cincinnati *Gazette* for libel. The suit against the former will be based upon a charge in the *Tribune* that he voted for the acquittal of the President under corrupt influences, and with the latter that he was guilty of corruption while Chairman of the Senate Committee of Naval Affairs during and since the late war.

John Morrisey says that Mr. Chase can get the vote of the New York delegation in the National Democratic Convention, and thinks it quite probable that the Chief Justice may be the nominee for President.

General Sherman writes strongly in favor of having the government assist in the building of the North Pacific Railroad from Fort Wallace, Kansas, to Fort Lyon, Colorado Territory, an General Grant endorses the letter.

Mr. Thornton is trying to get a bill through Congress to allow smaller duty on bituminous coal from Nova Scotia, so that the latter country can compete with Pennsylvania for the coast vse trade.

The House Postal Committee will report adversely to the Government Telegraph bill.

The result of the tax bill debates will probably be a new act covering special matters, as a general law could not be disposed of at present without haste and careless action.

EVERY VIOLATION

Of the laws of health invariably entails its own punishment, and the warnings administered by the faithful monitor (pain) cannot be neglected with impunity. If its admonitions were heeded, and the proper remedy immediately resorted to, a vast amount of suffering would be prevented, and dangerous diseases averted. When the head throbs, the lips become parched, and the cheek is burning—the warning is given: neglect is then dangerous. In the vast storehouses of nature may be found remedies for all the different maladies that afflict mankind, without resorting to pernicious minerals. The best of these medicinal agents have been incorporated in the preparation known as HOSTETTER'S STOMACH BITTERS, and offered as a safe remedy to those suffering from the various forms of fever. This medicine has steadily and surely won its way into the confidence of the public, and has received the warmest encomiums from the press and people throughout the Union. As a valuable tonic for the cure of Dyspepsia, Flatulence, Constipation and general nervous debility, it cannot be approached. Every day new cases of its great effect are chronicled through our public journals. There is nothing equal to the enjoyment which the afflicted experience when using this valuable specific. Its mild tone, its sure and vigorous action upon a disordered stomach, and the cleansing of the entire human body, should recommend it to all classes of our community.

ADVICE TO CONSUMPTIVES

DR. KEYSER says: "You want air, not physic; you want pure air, not medicated air; you want plenty of nutrition, such as plenty of eat and bread will give; physic has no nutriment to sup for air cannot cure you; monkey capers in gymnasium cannot cure you; and stimulants cannot cure you. If you want to get well, go in for KEEP AN OUT-DOOR AIR."—*Republic.*

He says further: Don't put off the first symptoms. "A little leak may sink a great ship;" a small sore in the throat, lungs or liver will soon involve the whole body. How often do we see people put off for a year or two what in the beginning could have been remedied for a trifle. The Doctor's advice is, and always has been, attend to the first symptoms of disease. Do not let the constitution become a wreck before you begin to mend; if you do, ten to one there will be no remedy. There is a remedy for every disease if taken in time. A slight sore throat or cough may be removed with comparatively little trouble; but a constitution, sinking and breaking to pieces by allowing these little troubles to accumulate is not so easy. Dr. Keyser's mode of lung sounding is unique, and as thorough as it is unique. There is not a spot or space over the whole surface of the lungs that he does not sound and investigate, and by so doing is enabled to supply the appropriate remedy.

DR. KEYSER'S RESIDENT CONSULTING OFFICE FOR LUNG EXAMINATIONS AND TREATMENT OF CHRONIC DISEASES, No. 126 PENN STREET, from 9 A. M. UNTIL 3 P. M.

June 1st, 1868.

MR. WEBB'S iron-clad Dunderberg, sold to the French Government some months ago for £294,100, has been almost wholly rebuilt at Cherbourg, at a reported cost of £200,000 more. A French paper says: "Although ten millions of francs have been invested in her, it is the opinion of the most competent judges that she will not be able to hold the sea for more than four or five years, owing to the bad quality of the wood employed for her construction."

NEW ADVERTISEMENTS.

600 MILES

OF THE

UNION PACIFIC RAILROAD

Are now finished and in operation. Sixty miles of track have been laid this spring, and the work along the whole line between the Atlantic and Pacific States is being pushed forward more rapidly than ever before. More than twenty thousand men are employed, and it is not impossible that the entire track, from Omaha to Sacramento, will be finished in 1869 instead of 1870. The means provided are ample, and all that energy, men and money can do to secure the completion of this

GREAT NATIONAL WORK,

At the earliest possible day, will be done.

The UNION PACIFIC RAILROAD COMPANY receive:

I.—A GOVERNMENT GRANT of the right of way, and all necessary timber and other materials found along the line of its operations.

II.—A GOVERNMENT GRANT of 12,800 acres of land to the mile, taken in alternate sections on each side of its road. This is on absolute donation, and will be a source of large revenue in the future.

III.—A GOVERNMENT GRANT of United States Thirty-year Bonds, amounting to from $16,000 to $48,000 per mile, according to the difficulties to be surmounted on the various sections to be built. The Government takes a second mortgage as security, and it is expected that not only the interest, but the principal amount may be paid in services rendered by the Company in transporting troops, mails, &c. The interest is now much more than paid in this way, besides securing a great saving in time and money to the Government.

IV.—A GOVERNMENT GRANT of the right to issue its own FIRST MORTGAGE BONDS, to aid in building the road, to the same amount as the U. S. Bonds, issued for the same purpose, and *no more*. The Government permits the Trustees for the First Mortgage Bondholders to deliver the Bonds to the Company only as the road is completed, and after it has been examined by United States Commissioners and pronounced to be in all respects a first-class Railroad, laid with a heavy T rail, and completely supplied with depots, stations, turnouts, carshops, locomotives, cars, &c.

V.—A CAPITAL STOCK SUBSCRIPTION from the stockholders, of which OVER EIGHT MILLION DOLLARS have been paid in upon the work already done, and which will be increased as the wants of the Company require.

VI.—NET CASH EARNINGS on its Way Business, that already amount to MORE THAN THE INTEREST on the First Mortgage Bonds. These earnings are no indication of the vast through business that must follow the opening of the line to the Pacific, but they certainly prove that

FIRST MORTGAGE BONDS

upon such a property, costing nearly three times their amount, ARE SECURE BEYOND ANY CONTINGENCY.

The Company have abundant means in their treasury, and make no appeal to the public to purchase their Bonds, as the daily subscriptions are entirely satisfactory; but they submit that, for entire security and liberal returns, there is certainly no better investment in the market.

The Union Pacific Bonds are for $1,000 each, and have coupons attached. They have thirty years to run, and bear annual interest, payable on the first days of January and July, at the Company's Office in the City of New York, at the rate of six per cent. in gold. The Principal is payable in gold at maturity. At the present rate of gold, these bonds pay an annual income on their cost of

NEARLY NINE PER CENT.,

AND IT IS BELIEVED THAT THEY WILL SOON BE AT A PREMIUM.

The Company reserve the right to advance the price of their bonds to a rate above par at any time, and will not fill any orders or receive any subscriptions on which the money has not been actually paid at the Company's office before the time of such advance.

Parties subscribing will remit the par value of the bonds and the accrued interest in currency at the rate of six per cent. per annum, from the date on which the last coupon was paid. Subscriptions will be received in Pittsburgh by

At the Company's Office, No. 20 Nassau Street, and by

JOHN J. CISCO & SON, Bankers, No. 59 Wall Street, and by the Company's advertised agents throughout the United States.

Remittances should be made in drafts or other funds par in New York, and the Bonds will be sent free of charge by return express. Parties subscribing through local agents, will look to them for their safe delivery.

A PAMPHLET AND MAP FOR 1868 has just been published by the Company, giving fuller information than is possible in an advertisement, respecting the Progress of the Work, the Resources of the Country traversed by the Road, the Means for Construction, and the Value of the Bonds, which will be sent free on application at the Company's offices, or to any of the advertised agents.

A RIVER BOTTOM FARM OF 76 ACRES, 19 miles from the city, in Elizabeth township, Allegheny county, Pa., on the Youghiogheny river, one-half mile from Elrod's Station, on the Connellsville railroad; near churches, schools, stores, &c., in the flourishing villages of Boston and Green Oak. The improvements are a two-story brick house of six rooms, hall and cellar, a good frame bank barn with stabling underneath, and other outbuildings; a well of good standing water at the door, and several standing springs of water on the farm, and an orchard of 700 trees of selected fruits of apples, cherries, pears, peaches, quinces and grapes. This property being located near the line of the railroad, within one hour's ride of the city, makes it very desirable for gardening or a dairy farm; it is also a good and beautiful location for country homes near the city, lying immediately on the river, on the opposite side from the railroad. The West Newton Accommodation and other trains on the railroad afford certain and frequent opportunities of daily communication to and from this city. Will be sold as a whole or in lots of one acre or more, to suit purchasers.

Also, A FARM OF 173 ACRES, situated in St. Clair township, Westmoreland county, Pa., near the line of the Pennsylvania Railroad at Houston Station. The improvements are a two-story frame house, with six rooms and good cellar, a frame bank barn, 40 by 60 feet, and other outbuildings. There is on the place a young apple and peach orchard; 120 acres cleared land, divided into fields of convenient size, a large portion of which are well set in clover and timothy; the residue of said tract covered with good timber. It is well watered and underlaid with coal and limestone, and is convenient to churches, schools, stores, mills and blacksmith shops. A real good bargain is offered in this excellent farm; and with it will be sold all the personal property on the premises, consisting of horses, cows, stock cattle, hogs and poultry, harness, gears, wagon, plows, farming implements and household and kitchen furniture. Together will be sold very low and on easy terms, to a responsible purchaser.

Also, a desirable and very fertile Tract of Land of 158 ACRES AND 25 PERCHES, in Elizabeth Tp., Allegheny county, Pa., on the line of the Hempfield railroad, and one and one-half miles from the Connellsville railroad at Suter's Station, on this farm are 40 acres of superior white oak timber, which alone is now worth one-half the price asked for the whole tract. The improvements are a log house, frame barn, good fencing, and an apple orchard of good fruit. It is well watered and underlaid with limestone and flag stone of a superior quality, with stone coal for the use of the farm.

Also, The best FARM in Fairfield township, Westmoreland county, Pa., of 250 ACRES, about six miles south of the Pennsylvania Central Railroad at Bolivar station. FINANCE AND TRADE.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, June 6, 1868.

The increase of commercial bills on the market and the rise government bonds abroad made a very favorable impression on the gold market, so much so that the shipments of specie are decreasing. A disposition to discount the heavy payments of coin on July next has manifested itself at the gold room, and shrewd operators are selling their gold ahead in anticipation of lower quotations.

Government bonds are lower and dull to day, which is attributed to a determined effort on the part of large stock firms to discourage dealing in these bonds in order to attract more attention to the stock boards. When the investment demand from the interior is diverted by the present high prices of governments, a prop is taken that was the main cause of the high market. The advance of governments was aided by a desire to anticipate the scanty supply supposed to be on hand about the first of the present month, but dealers had laid in such a heavy stock at low prices that they were able to meet any demand made upon them. The advance of the Pacific Railroad bonds has shown them to be a more desirable investment than at first was thought of, and the demand for them is so great, that large sums are placed in these securities now in preference to governments, because they are much cheaper and bear about the same relation to the latter as national bank currency does to greenbacks.

Stocks are dull and lower; Fort Wayne has gone back again, and the balance of the list is rather inactive. Express shares are improving, and more business is done in them, but the Adams and Merchants Union are depressed on account of their recent heavy losses by robberies.

Mining shares are improving, and quite an active business is carried on in them. The recent discoveries of separating the metals, and the approach of the new railroads, will give mining property a greater value.

Business has been rather dull during the past week. Money is easier, but only for short paper. There is much inquiry for bank stocks before the July dividend; also, some other local bonds are inquired for, simply to draw the next coupon—after that they will go a begging again.

Closing quotations as received by Ph. R Mertz, were as follows:

Gold, 139¼; U. S. 6's, 1881's, 116¼; 5-20's, 1862, 112¼; 5-20's, 1864, 110¼; 5-20's, 1865, 110⅜; 10-40's, 106; 5-20's, January and July, '65, 113; 5-20's, January and July, '67, 113¼; June 7-30's, 109½; July 7-30's, 109⅝; May Comp., 1865, 119-20.

—Of the conversions of 7-30 notes the New York *Post* says: The conversion of 7-30s in May at the Assistant Treasurer's office here amounted to $59,350,200, and the purchases at the same office to about twelve millions. There were also purchases and conversions at Washington, but we have no estimate of their exceeding three millions. Seven-thirties were thus retired during the month of May amounting to about $74,354,000, which, deducted from 163½ millions outstanding May 1, leaves the amount yet to be converted and purchased some $89,000,000. At the rate of conversions in the last week of May, this amount, eighty-nine millions, would be closed out within the present fiscal year, ending June 30th. If such should be the case there would be no 5-20s of 1868, an issue which dealers have anticipated, and the issue of 5-20 bonds would end with the 1867's.

—The following statement exhibits the business of the Pittsburgh Clearing House, for the week ending Saturday June 6th:

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, June 6, 1868.

Business has been very dull during the week which has just closed, and there is but little prospect of any immediate improvement. The general markets are entirely devoid of excitement, and there are but few new characteristics worthy of special notice. Notwithstanding there has been a material advance in Flour and Grain in Chicago during the past day or two, the advance there has made no impression here as yet. Indeed, grain is lower now than it was earlier in the week, and the arrivals are much larger. The movement in Chicago is a regular "bull," as the crops all over the country never looked better, and the indications now are that we will have the heaviest yield ever known in this country.

BUTTER—Continues very dull and neglected, notwithstanding the arrivals are light, the supply seems to be in excess of the demand. Prime to choice Roll, 18 to 20 cts.

EGGS—Steady in the face of liberal arrivals, and 23c is still regarded as the ruling price.

FISH—Firm but unchanged. We continue to quote at $5 for Lake Herring, and $8,50 to $9 for White Fish. Baltimore Herring $10,50 per bbl, and Shad $8,50 per half barrel.

FLOUR—Is quiet but firm, and stocks are pretty well reduced. We continue to quote at $10,50 to $11 for Spring Wheat; $11,75 to $12,25 for Winter Wheat; and $14 to $15 for fancy brands. Winter Wheat, extra, $9,50. Sales of "City Mills Springfield" at $12; "White Star," $11,50, and "Falcon" and "Sears" at $10,75 to $11. Rye Flour, $10.

POTATOES—Dull but unchanged; we continue to note small sales of prime Peach Blows, in store at $1,35 to $1,40.

DRIED FRUIT—Is very dull with a supply largely in excess of the demand, but unchanged. Small sales at 6½ to 7¼c for Apples, and 12 to 13c for Peaches.

HAY—Is dull and in good supply; sales of baled at $16 to $19, and Wagon Hay at $17 to $22, as to quality.

GRAIN—Wheat continues dull but unchanged; we continue to quote Red Winter at $2,40, although a miller assured us that he could have bought on Friday at $2,35. Oats dull and drooping; sales reported on wharf at 80 to 82c, and in store at 83 to 85c. No improvement to note in the demand for Rye, and the market is dull and $1,60 to $1,65 may be regarded as the nominal quotations. Corn is dull and irregular, with sales of Shelled at $1 to $1,05, and prime Ear at $1,07 to $1,10. No movement in Barley.

LARD OIL—Is dull but unchanged; we continue to quote at $1,50 for Extra No. 1, and $1,25 for No. 2.

SEEDS—Flaxseed is scarce and wanted at $2,50 to $2,55. No demand whatever for Clover or Timothy.

PROVISIONS—Bacon is quiet and unchanged; 14c for Shoulders; 16c to 18c for Ribbed and Clear Sides; 19¼ to 19½c for Plain, and 20 to 20½c for Canvassed Sugar Cured Hams. Prime kettle rendered Lard, 18½ to 19c. Mess Pork, $28 to $28,50

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, June 6, 1868.

CRUDE—The crude market was very quiet and dull during the early part of the week, and compared with the preceding week, prices declined from a half to one cent per gallon. Yesterday and to-day, however, there was considerable excitement, and the sales were much larger, and compared with the early part of the week, an advance of a full cent has been established. Then, spot oil was dull at 10½c, while to-day sales were made for the same delivery at 11½c. The transactions reported were as follows: 5,400 bbls in lots, on spot, at 11½c; 4,000—1,000 each, for September, October, November and December at 12½c; also, 110 bbls at 11c, bbls returned - spot. At Oil City it would seem that the excitement is even greater than here, having advanced from $3,90 to $4 on Thursday to $4,60 and $4,70 to-day; dealers there know how to put up prices, but they kick desperate against any attempt to put them down.

REFINED—The market for bonded oil is also much stronger, and, compared with Wednesday and Thursday, a material advance has been established; this afternoon, however, the market was reported a little "offish," though no decline, as yet. The sales reported were as follows: 1,000 each for July and August at 30¾c; 1,000 each for June, July and August at 30½c; 500 for the first half of August 31c, and 500 for the first half of August at 31c, and 500 for the last half at 31½c, and—last evening—500 for the last half of June at 30c. To-day, the last half of June was quoted at 29½ to 30c; while July, in the absence of sales, may be quoted about half a cent higher. As yet, we have heard no particular cause assigned for the present "flurry," and the most remarkable feature connected with the movement is the fact that it should occur, in the face of a dull and quiet market in Europe.

ARRIVALS—The arrivals of oil reported to-day were as follows:

G. S. Thomas	1200	Clark & Sumner	230

New York Dry Goods Market.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, June 6.—The Dry Goods market continues dull and depressed. Amoskeag A C A Ticks 3c lower and now job at 35c; the A brand down to 30c, the B to 25, the C to 22c, the D to 20c. Amoskeag Denims are reduced to 31c. Booth bleached to 14½c, Masonville bleached Muslins to 48c; Putnam A bleached is selling at one shilling. Prints are generally steady at 12½a 13½c for standard makes, as to style. In light unbleached Muslins and Printing Cloths there is some speculative movement both here and at the East, but this has no apparent effect on the market. Standard Sheetings steady at 17½c for Atlantic A and Clark's; 17c for Lyman E; Atlantic 14c; Pacific extra and H; 15c for Dwight Q; 12½c for Great Falls M, and 10c for Scott's extra and Bedford R.

Grant in History Already Written.

During the war to crush the slaveholders' rebellion many distinguished civilians and military men from the old world visited the United States, to behold and study our legislative, executive and military machinery, that they might make comparisons between the intellect, and practical ability of Europe and the United States. Among those who thus visited the country and passed the time in the camps of the Union armies, and mingled with the statesmen in authority at Washington, was Adam Gurowski. From the day he arrived in our midst, Garowski was admitted to the very best military and civic circles, and while thus associated kept a diary from which we now propose to make extracts.

March 24, 1864, the following striking allusion was made to the man who is to-day the Republican candidate for President:

Grant will not be intoxicated wth flattery as was McClellan. I never met with a man of so much simplicity, shyness and—decision.

April 5, 1864, occurs the folowng remarkable passage in his diary:

Grant has lost nothing of his feshness of mind and ingenuousness. He avoids Washington and its various corupting allurements; nay, he runs away rom them. And Grant is right; his good genius inspires him. Grant is essentiall a soldier for the camp and field. All Grant's predecessors in the command of the army of the Potomac—several commanders of corps, divisions, brigades and regiments—in one word, many, many officers, and even the rank and file, came to grief, and were ruined by Washington influences. Even McClellan was ruined by his sojourrin Washington, provided that there was anything whatever to be ruined in McClellin. When with the army, the thought an mind of Grant's predecessors were not inhe camp, but in Washington, in its varius attractions and intrigues. The commnders and generals, etc., visited and visit Washington when they can; its various attractions ruin them.

April 8, 1864, Gurowski draws the following admirable pen and ink portrait of Grant:

How fond this giant is of viating the easy military regulations! Thes! Grant establishes his headquarters *ten sles* nearer the army than Meade had hi Grant's headquarters are almost amidst te soldiers. That is a Western and not a Potmac army custom. Bad precedent, and ctainly an anti-McClellan one. Then Gmt travels with the simplicity of a Second leutenant; without fuss, with a small trunk which he forgets in his room, and to savdime goes off leaving the trunk behind. IcClellan, although not a Lieutenant Geeral, had splendid traveling equipages, carriages, etc., all this for a campaign o120 miles space, and in a country withrailroads. *That was Commander-like!*

If Grant fails, then a curse is n this Potomac army. Grant is a soldier) the core, and a genuine democratic (not i the party sense) commander of a democatic army from a democratic people. Furer: Grant sends off his wife to the farm ofher father, some where in Missouri. If all his—to be classical and hifaluting—is not hman, Cincinnates and matron-like, theri am at a loss for precedents and for histrical illustrations.

Per contra: McClellan tried s much as he could to ape aristocratic Eupe. Brilliant receptions, representatios, servility surrounded him, and he thrivedn them.

The final question is: Will Cant remain a diamond, resisting the dissoling Washington acids?

April 11, 1864, Grant is agaiigraphically depicted:

From what I learn from and f Grant, he is no more afraid to take the sponsibility of a million men than of a singl company. This is a very praiseworthy feture in his character, and the more so as its not generated by conceit or indifference

The Capture of Magdal.

Magdala appeared to be one f the plateaus common in Abyssinia, and extended over a mile and a half in length by three-quarters of a mile in width. It was oval in shape, and on all sides was protected by high, perpendicular walls of basaltic columnar rock, varying from one thousand to three hundred feet in depth. There were about three thousand houses on tle plateau, arranged in circles, with a large, open space in the center, as if left vacant for drill ground or meeting purposes. On a gentle knoll, surrounded by a hedge, were the King's treasure houses. These he troops plundered, carrying off golden crowns, golden chalices, crosses of gold and silver, nuggets of the same precious metal, boxes full of silver dollars, chests full of gold and silver plate, censers of gold, silver mugs, dishes, kettles and goblets of the same material; great chests full of ornaments and richest silk dresses; bottles of champagn wine, arrack, beer, casks of tej and mead sacks of flour and grain, jars of butter, jhe and milk, magnificent silk tents of varie gated colors, rose, pink, lilac and white where Theodorus used to loll when i good humor, surrounded by his wive and concubines; these were torn, rippe and divided among the soldiery, wh made light of the most valuabl things. Persian carpets, English, Frenc and Turkish silks fell to the lot of the mean est camp followers; robes of fur, lion skir and leopard skins were sold by the fortunat possessors and realized fabulous sum shields ornamented by thick gold plate globes of filigree, gold and silver, fringe with small bells of the same material; Stat umbrellas, richly adorned, with all the ba baric magnificence that the genius of Cor dor and Bejemder could manufactur swords and pistols of the finest workman ship, with gold and silver hilts; scabbard of crimson morocco, studded thickly wit gold buttons; parchment books and manu scripts; bibles written in the Amhari tongue; albums and photographs presente by Napoleon III to Theodorus, of Amer can, English, French and Turkish scenery strewed the grounds of his palace for man eods around; baresley escritoires full of roy al letters, complimentary and diplomati notes from different sovereigns of Europe In a small writing desk, richly ornamente with mother of pearl, was found the roy seal, with the lion of the tribe of Judah e graved on it. In a corner of his house w found the royal standard, with the lion Judah worked in red, blue and white sil and in a strong chest was found the Abuna mitre, three hundred years old. Many these things were destroyed by the ruthle soldiery, and yet valuable things were saved such as the four royal crowns, one Abuna' mitre and two golden chalices, three hund red years old, and the King's magnificen state shield, heavy with topazes and sap phires.

Another relic was saved which is likely possess much interest for antiquarians an curiosity seekers, viz: Theodorus' shiel which he wore when he first undertook rebel against Welled Sellas, the forme Emperor of Abyssinia. This is a very o dinary shield, decorated with thin plates silver. All these trophies have been sente to the English government, with the exceptio of the Abuna's mitre, a chalice and to King's shield, which Mr. Holmes, of to British Museum, secured. Some of to soldiers filled their pockets with the dollars and nuggets and got "beastly drunk," so a dashing cornet said, on the arrack and tej. —*Abyssinian Letter.*

Indian Affairs.

The Helena (Montana) *Herald* has advices from Fort Buford and along the upper Missouri River that there is a prospect of the renewal of Indian hostilities, and that the Government is preparing for a fight. It is reported up there that the Government is chartering all the steamers on the Missouri River for the purpose of transporting troops and supplies and making other preparations for a general Indian war. The Tenth Infantry, stationed at Fort Abercrombie, are under marching orders, and the Thirty-first Infantry, at Forts Totten, Stevenson and Buford, are ordered to Montana to relieve the Thirteenth Infantry.

Per contra, Gen. Sheridan, in a letter to Gen. Grant, under date of 22d May, thus incidentally speaks of the Indian question in the section over which he is placed: "I have not had a single depredation in my department since I assumed command, and I have the greatest desire to maintain this peaceful condition of affairs. I have made a great deal of personal exertion by visiting nearly every post in this section of country, in which the Indians were hostile last year, and in all interviews with the Indians was led to believe that we may be able to preserve the peace the coming summer."

THERE is in the town of Arkwright, Chautauqua county, New York, a little lake a mile in length by half a mile in width, perhaps, which has two outlets and no inlet, being fed by springs at the bottom. The lake is on the "dividing ridge," and one outlet forms a tributary of the Conewango, and its waters find their way through the Allegheny, Ohio and Mississippi rivers to the Gulf of Mexico, while the other outlet forms one branch of Silver Creek, which empties into Lake Erie, and its waters thus find their way into the ocean through the St. Lawrence. There is a still more remarkable point for the division of waters. It is in the borders of Pennsylvania, where three little brooks spring from the earth within gunshot of each other. One discharges its waters into the Atlantic by way of Gennesee River and the St. Lawrence, another by way of the Susquehanna and Chesapeake Bay, and the third by the Allegheny, Mississippi and the Gulf of Mexico.

A DELEGATION of the members of the Presbyterian General Assembly, New School, recently in session at Harrisburg, being on a visit to Washington, called in a body upon Gen. Grant to offer him their congratulations and pay him their respects.

THE FAMOUS, ORIGINAL AND ON

CITY AND SUBURBAN.

Daily Prayer Meeting—From 12 M. to 12:30 o'clock at the Methodist Church, Fifth street, next door to GAZETTE office.

To Fifth and Ninth Ward Subscribers.

Mr. Brownson, a one armed soldier, and an energetic, faithful carrier, is alone authorized to deliver the GAZETTE in the Fifth and Ninth wards. Readers are cautioned against paying for any journal thrown in upon them to supplant the place of the GAZETTE by an over-zealous carrier in the employ of a contemporary. Those missing their papers will please leave word at our counting room, and the matter will at once be remedied.

Disgraceful Row in the Third Ward.

The Third ward, once so notorious for rowdyism, free fights and cutting affrays, has for some time past been unusually quiet and peaceable, and the authorities were flattering themselves that the leading spirits in these disgraceful affairs had either left the neighborhood or left off their evil ways; but they were fully convinced that such was not the case yesterday. Between twelve and one o'clock a crowd of loafers had collected at the corner of High and Webster streets, and were discussing the chances of their favorite candidates in the approaching Democratic Convention. As the stimulating effects of the last dose of the "spirit," but recently swallowed, increased, so did the discussion, which not only "waxed warm," but loud, and one or two of the party became so earnest in behalf of their candidates that they were about to resort to a knock down argument, when two policemen appeared and ordered the crowd to disperse. It appears that Christy Bradford and his brother Jack, both of whom when sober are quiet, peaceable men, but quite the contrary when drunk, were in the crowd and declined to leave when requested to do so by the officer. Christy became more boisterous than ever, and was finally arrested by the officers, who started to take him to the lock-up. After they had proceeded a short distance, with considerable trouble, they were prevailed upon to let Christy loose, he promising to go with them to the lock-up peaceably, which it appears was only a trick to aid him to escape, as they had scarcely taken their hands off him when he started to run like a quarter horse. Officer W. A. Hoak started in pursuit and would have recaptured him in a short time had he not been hindered by the crowd, who threw paving stones and did all they could to aid Bradford in his escape. The officer continued the pursuit up Webster to High street, and was within a few feet of the fugitive when, as he passed an alley on High street, he was struck on the head with a boulder which knocked him down. He was taken up and assisted to Dr. Oldshue's office where his wounds were examined and dressed. His head was cut severely, but the injury is not a serious one. While the doctor was dressing the wound a large crowd of persons collected in the office and in front of the door, and were becoming rather boisterous and disorderly, when another policeman attempted to disperse them. Many of them went away quietly and peaceably, but one man refused to comply with the request, in consequence of which he was arrested and taken to the lock-up. Hoak, the officer who received the injury, made information before acting Mayor Butler against Christy and Jack Bradford, charging them with felonious assault and battery, and warrants were issued for their arrest.

Death from the Use of Chloroform.

Mr. William Fitton, formerly residing at Woods Run, died Saturday evening at W. J. Morgan's Hotel, on Penn street, in the Fifth ward, from the effects of chloroform. Mr. Fitton had been suffering for a number of years with a diseased leg, which at times was extremely painful, and in order to be relieved of the excruciating pain he used chloroform. His physician forbid the use of it, and to prevent him from using it sent him to the Homœpathic Hospital several days since. Saturday morning he left the hospital and went to the hotel mentioned, and having procured a quantity of the fatal article, began the use of it again, and about seven o'clock in the evening was discovered in his room lying on his bed dead, with a sponge containing chloroform near his mouth. Coroner Clawson was summoned yesterday morning and held an inquest on the body, when the jury found "that the deceased came to his death on the evening of June 6th, 1868, from the use of chloroform administered by himself." The deceased was a single man, about twenty-four years of age, and had been under the charge of Dr. Dickson for almost nine years in consequence of his deceased limb.

Convention of the Protestant Episcopal Church in the Diocese of Pittsburgh—Meetings, Services, &c.

A public meeting of Pittsburgh Church Guild will be held at their Guild House, 265 Penn street, at 7½ p. m. to-day (Monday). The members of the Convention and of the Church generally are earnestly invited to attend.

The Convention will meet in Trinity Church on Tuesday morning at 10 o'clock, for divine service, sermon and holy communion. The Convention will be organized for business at the close of the service. It will meet again at 3 p. m., and at 9 a. m. and 3 p. m. the next day (Wednesday). On Tuesday evening the sermon before the Female Prayer Book Society will be preached by Rev. Mr. Purdon—service at 7½ p. m. On Wednesday evening at 7½ o'clock a public Missionary meeting will be held. The members of the different congregations are earnestly invited to attend these meetings and those of the Convention.

Fatal Accident.

An accident occurred at Hays & Co's Works, at Six Mill Ferry, on the Monongahela river, on Saturday evening, resulting in the death of William Defour, a coal digger, employed at the works. Defour went into the pit at noon on Saturday, and not returning at the usual time in the evening, a number of his fellow-workmen went in search of him. On entering the pit where he had been at work his body was found lying under a piece of horseback about two feet long and two and a half feet wide. He was quite dead. Coroner Clawson was notified, and yesterday morning he held an inquest, the jury returning a verdict of accidental death. The deceased was a Frenchman by birth, was fifty-six years of age, and leaves a widow and a family of grown-up children. He had been a coal digger for over thirty years.

Union Executive Committee.

The Committee appointed by the late Republican Convention to act in conference with the Chairman of the County Convention, Thomas Ewing, Esq., to select and appoint a Union Republican County Committee for the ensuing year, met at the office of the Chairman on Saturday afternoon. A number of names were acted upon and placed on the Committee, but as unusual care is taken in the formation of this important political auxiliary, the appointments were not completed. Another meeting will be held to complete the list to-morrow afternoon at the same place after which the Committee will be announced.

THE COURTS.

United States District Court—Judge McCandless.

On Saturday the Ballou case occupied the time of the Court, and will not be concluded before Monday or Tuesday.

In the bankruptcy branch Truman Finn, of Scranton, Luzerne county, filed a petition for adjudication.

Petitions for final discharge were filed by C. M. Simmons, John W. Brackney, Michael Dyle, Jas. W. Carrier, all of Susquehanna county.

District Court—Full Bench.

On Saturday, in the case of Peebles and wife vs. Henry Floyd and George Black, application for an injunction to restrain defendants from tearing down a partition wall in a tenement house on Diamond street, injunction refused.

Common Pleas—Judges Stowe and Sterritt.

On Saturday John C. Ross, of East Deer township, asked for a preliminary injunction against the School Directors of said township to prevent them from levying an additional bounty tax on the township for the sum of $5,000, of which sum petitioner is assessed $89.

After argument the Court granted a preliminary injunction, and fixed Thursday next as time of hearing.

The jury in the case of Adolph Rodelheim vs. Wm. Hageman, previously reported, returned a verdict in favor of plaintiff for the sum of $45.

A non-suit was entered in the case of Wm. Farley vs. John McMahon.

Berries by Measure—An Ordinance to be Enforced.

The luscious and tempting strawberry has found its way into our market, and from present appearances this season will be abundantly supplied with the delicious small fruit. In a stroll through the Pittsburgh market on Saturday we were surprised to observe some dealers retailing berries in boxes of uncertain capacities, and naturally presumed that all of our dealers in small fruit have not been made aware of the passage, June 27th, 1867, by Councils of an ordinance regulating the sale of all kinds of berries. For the benefit of our readers, and especially those who are ignoring its presence in our city code, we reprint the ordinance in full:

"An ordinance relating to the sale of berries by measure. Be it ordained and enacted by the Mayor, Aldermen and citizens of Pittsburgh in Select and Common Council assembled, and it is hereby enacted by the authority of the same, that from and after the passage of this ordinace it shall not be lawful to sell berries in the market *otherwise than by measure*, under a penalty of not less than one dollar nor more than five dollars, to be recovered as like penalties are now recovered."

This ordinance was also passed by the Allegheny Councils, and the same rule prevails on that side of the river. We learn that the proper authority will take the matter in hand to-day in the Pittsburgh market, and the penalty will be visited on all violations of this law, framed for the protection of purchasers.

Ferocious Dog.

John Herron, lumber merchant, residing in Collins township, is the possessor of a fine St. Bernard dog, which he values very highly, and a few days since Patrick Mahon, having some business with Mr. H., went to his house, where he was attacked by the dog and bitten severely. Patrick complained to Mr. H., and demanded the life of the dog. Mr. H. did not wish to kill the dog, and so informed Patrick. He was willing to pay all damages, however, and gave Patrick a five dollar bill, which at the time appeared to be satisfactory. Saturday morning he returned the money and demanded the life of the dog, swearing that he did not "sell his blood for money." Mr. H. refused to slay his canine friend, and Patrick went before Alderman McMaster and made information charging him with keeping a ferocious dog. A warrant was issued for his arrest, and if the dog is found to be ferocious, we presume a dose of strychnine will be recommended.

Serious Affray in Frankstown.

Friday evening James Griffith, Patrick Toole and Patrick McCune were in a saloon Frankstown and had been drinking together, when a quarrel arose between them. McCune and Toole attacked Griffith and beat him in a most outrageous manner, breaking two of his ribs, and it is thought inflicting internal injuries which may prove fatal. The injured man was removed to his residence, which is but a short distance from the saloon, and medical assistance summoned. Saturday Alderman Thomas was sent for and Mr. Griffith made information charging Toole and McCune with felonious assault and battery, upon which they were arrested and committed to jail to await the result of Mr. Griffith's injuries. John Griffith, a son of the injured man, also made information charging the same defendants with aggravated assault and battery, upon which charge they were held for a hearing.

Young America.

Walter Floor, a lad about fourteen years of age, was arrested by officer Wilmot, at the St. Nicholas Hotel, about one o'clock yesterday morning. A dispatch was received at the Mayor's office, Saturday night, from George Floor, the boy's father, who resides at Canton, Ohio, stating that he had ran away from home, and requesting that he be arrested and sent back. The boy, who is a bright intelligent lad, states that he left home Friday morning and came to this city on a freight train. He says his father abused him, and when he worked drew all his wages, a proceeding he very much objected to, and for that reason he left home. He is, however, satisfied with his experience, and expresses a desire to return home. His father has been notified of his arrest, and he will probably be sent home to-morrow.

Free Lectures on the Far West.

Rev. Alexander Sterrett, a minister of the Presbyterian Church at Manhattan, Kansas, and a delegate to the General Assembly U. P. at Albany, at the request of his brethren of that Church, will deliver a series of lectures on the region beyond the Missouri, in which the progress of population and the propagation of the Gospel in that interesting field will be discussed. Mr. Sterrett is a live, sensible and practical man, and well informed in what he proposes to talk about. He expects to be in Pittsburgh about the 15th of June. We give this notice in advance that arrangements may be made here and in neighboring towns to give him audiences.

The Tabernacle.

The tent or tabernacle, purchased by the Young Men's Christian Association, to hold religious services in, was pitched on the lot at the corner of Seventh and Grant streets and dedicated yesterday. It is the upper portion of a tent without the base, and consequently only suited for dry weather. The dedication service took place at four o'clock and was witnessed by four or five hundred persons. The ceremonies were interesting and impressive. Rev. W. M. Young, pastor of the Regular Union Baptist Church, Grant street, deliveredthe address, which was preceded and followed by the customary religious exercises.

A requisition from Governor Geary for the person of Chatoney, the absconding sewing machine agent, under arrest at New Orleans, has been forwarded.

Another Robbery at the Elevator.

A gentleman from Hanoverton, Ohio, whose name we did not learn, was robbed near the Elevator, about five o'clock on Saturday morning of ninety dollars. He had been east and arrived in this city on his way home, on the morning train, Pennsylvania Railroad, Saturday morning at two o'clock, and was waiting at the depot to take the morning train west. While sitting in the waiting room a man took a seat beside him, and struck up a conversation, and on learning his destination stated that he was going to the same place, and that he had just called over to get a porter to carry his trunk to the depot, but he could not find the porter and would have to carry it himself. He asked the gentleman to go with him, stating that it was but a short distance away, which he readily agreed to do. They started and had got to the upper corner of the Elevator, on Washington street, when he threw a handful of red pepper in the gentleman's eyes, and then relieved him of his pocket book and made off with it. The gentleman was unable to give any very definite discription of the thief, and it is not probable that he will be arrested.

There were ten mortgages filed of record on the same day.

My Southern Tour.

Miss Augusta St. Clair the eloquent young lady lecturess, is in this city, and to-morrow evening will deliver a lecture on her "Journey Through the South" last winter. Latterly this lecture in Stienway Hall, New York, and in Philadelphia was applauded as the most searching commentary on life in the unreconstructed States.

Miss St. Clair, although eminent as a lecturess, is not yet twenty, has lectured to over 1000 audiences in every quarter of the globe. Being en route to California, overland, she can remain in Pittsburgh but a single evening, and those who wish to hear an Englishwoman's opinion of the States lately in rebellion, will do well to go and hear her.

It Has no Equal.—Those desiring to purchase a cheap, substantial sewing machine, which does its work in such a manner as to win for it the approval of all who have any knowledge on the subject, should not fail to call and examine the Great American Combination Buttonhole Overseaming machine, for which Charles C. Balsley is agent for Western Pennsylvania. This is all that it advertises, and claims to have no equal. Agents are wanted to sell it, a business that must necessarily prove highly lucrative. Call and see the machine in operation at Mr. Balsley's rooms, corner of Fifth and Market streets, over the jewelry store.

Malicious Mischief.—Edward Gallaher was charged with malicious mischief Saturday, on oath of Henry Seaton, before Alderman McMasters. Seaton alleges that he left a wagon standing on a vacant lot in the Sixth ward, which the accused cut to pieces with an axe. He stated that he caught him chopping at the wagon, and that Gallaher said he was cutting it to pieces to get the irons off for the purpose of selling them. He was arrested and held for Court.

The Victim.—We published in the GAZETTE of Saturday an account of a transaction in which a man from the West was victimized to the amount of $950, omitting the name. The victim, we have since learned, was Jacob G. Rutter, a country merchant from Taylor county, Kentucky. A man answering the description given by the victim was arrested Saturday morning, but as there was no one to prosecute him he was discharged.

Major Denniston, County Treasurer, has had the books open for the receipt of State and County taxes since the 1st of May, and it appears that most persons have either forgotten that taxes have to be paid, or are neglecting the matter entirely. Those of our readers who are interested should make a note of the fact that it makes a difference of fifteen per cent. in paying now at the Treasurer's office or to the collectors after while.

Peanut Venders Prosecuted.—Officer Gumbert, under instructions from the Mayor and Chief of Police made informations against Domenec Cella, A. Rober, George Fory & Son, — Peebles, Joseph Mesaler, Jos. Leveler, Emanuel Carey, Steven Cavanagh and M. Cella, charging them with obstructing the sidewalks with peanut stands. They were held for a hearing on Wednesday next.

Bitten by a Dog.—On Saturday morning a dog belonging to Mrs. Cunningham, who resides in the Ninth ward, attacked a little child, daughter of Mrs. Joanna Whaley, and bit her severely. Mrs. Whaley made information before Alderman Taylor setting forth facts and charging Mrs. Cunningham with keeping a ferocious dog. She was arrested and held to bail for her appearance at Court.

Discharged.—Cyrus Tramp, charged with the larceny of $755 from Samuel Anderson, at the Mansion House, an account of which we published Saturday, had a hearing before Acting Mayor Butler, Saturday, which resulted in his discharge.

To the "Editors of the Gazette."

In the Pittsburgh GAZETTE the "Home for the Friendless" has ever found a *true* and *warm friend*, ready to do all its power to promote the interests of the Institution. *Many thanks* are due from the Managers, for the courtesies of the past, as well as the present—especially for the lengthy report of the anniversary, contained in its columns of Friday last. Owing, no doubt to want of proper information, there were some errors in the report, which ought, in justice, to be corrected. The exercises were opened by Rev. T. A. Noble, of the Third Presbyterian Church of this city, by reading the twenty-third Psalm, followed by a touching and impressive prayer. *Annie M'Cartny* was the little girl who delivered the address, so kindly spoken of by the reporter. This address, as the *anniversary song*, was written by Mrs. Levi Wade, who had charge of the arrangements for the anniversary, and who taught the children to speak and sing with so much credit on this occasion. "Pity the Orphan One" was sung by Tommy Dunn, a little boy under nine years of age, while standing beside was a little girl who has no other friend but the kind ladies who take care of this institution. The heart that could listen, unmoved, to the voice of that friendless child, as he sang,

Torn from parental love, guide of her youth,
Who now will gently breath lessons of truth?
Who lead her trembling steps home to the skies?
Where sorrow never comes, hope never dies;
Lovingly, tenderly teach her to pray,
Tell of the better land, show her the way;
Pity the orphan one, care for her now,
Chase every cloud away from her pale brow;
Hark! 'tis thy Savior, speaks kindly to thee,
All you may do for her, is done for me;—

must have been callous indeed. The successful manner in which the anniversary passed off will, there is no doubt, awaken a new interest among our citizens in this highly useful and ably managed Institution.

The Lancaster *Inquirer* pays the following tribute to General James S. Negley:

—General James S. Negley has been nominated by the Republicans of the Twenty-second (Allegheny) District as their candidate for Congress at the approaching election. General Negley is well and favorably known, not only in his own district, but throughout the country, as a brave and gallant soldier, and a gentleman possessing high qualifications for the responsible position to which his fellow citizens propose to elect him. In this action the Republicans of Allegheny county have given new proof of their gratitude to the soldier, and of their determination to reward the brave men who stood by the country in its hour of trial. Of his election there cannot be the slightest doubt.

A Family Affair.—The Wooster (Ohio) *Republican* is responsible for the following: "On Saturday, May 30th, Mrs. William Thompson, of Chester township, made her husband completely happy by presenting him with *three fine boys*, weighing together *twenty-four pounds*. Dr. C. J. Warner, of Congress, was in attendance, and the mother and children are doing finely. Who can beat that?

A young man in Montgomery county has been sentenced to pay ten dollars fine and imprisonment in the county prison for one year, for writing defamatory words on the shutters of a school house and at other places relative to a young girl that had been at Court a few terms ago. Persons disposed to defame their neighbors can learn a lesson from the result of this case.

Sudden Death.—On Sunday morning last Mr. Jesse Lyle, residing in Eldrod township, Lancaster county, was found dead. He had gone in search of his cows, and not returning as was thought in proper time, a search was instituted, which resulted in finding the body as stated. He died of heart disease.

Grant and the Israelites.

The Jewish *Messenger*, an influential Hebrew journal of New York, in its issue of June 5th, states the position of American Israelites on the Grant question. We extract the following:

But no sensible Jews are taking part in the public meeting called at St. Louis to oppose Grant. They would not only be the tools of designing politicians who have no love for the Union, and seek to create a sentiment in favor of principles and men antagonistic to the true interests of all good citizens. If Hebrew members of the Republican party decline to support its candidate, they will certainly do so on their individual account and need no pressure. They will not identify themselves *as Jews* with any partisan movement. Judaism has nothing in common with partisan politics. Each Synagogue is like each Church, by no means a unit on politics, or on science or on society questions. Mr. Beecher may be a good Republican, but there are members of his church who like to hear him preach on every subject except politics. A minister of a Jewish church once preached a political sermon, to the surprise and regret of his brethren. The experiment has not been often repeated. Israelites are too intelligent and to self-asserting to be driven or led by their ministers, especially in matters that have no connection with religion. Much less can they be influenced as a body by aspiring politicians, who care for them only as so many votes secured, or as so much capital made for *men* rather than for *principles*.

We have personally our own politics—but we cannot force our views upon our readers—save in this way, to confirm them in resolute determination to talk and work and vote in politics as they please, without reference to religious predilections, and without regard to the pressure of partisan leaders; and furthermore, to urge them to give no countenance to any movement calculated to involve the Hebrews as a body in any political contest. There is *no* religious issue. If Israelites are inclined to support a candidate like *Grant*, they exercise the suffrages as American citizens and not as Hebrews.

We ask our brethren of the press to take cognizance of this "platform," which represents the sentiments of the better class of Israelites, without distinction of party.

THE Foundling Hospital of Montreal has just published a report of its operations during the year 1867, which shows that the mortality at such institutions is fearfully great, and confirms the experience of the physicians of the Children's Hospital at the Philadelphia Almshouse. The report states that the total number of children received in 1867 was 653, against 634 in 1866, and 72 in 1865. Of the 652 infants admitted during the past year, 230 were born in other places than Montreal, and twenty-nine of these were born in the United States. The deaths amounted to 519, leaving only thirty-three children, or one alive out of every nineteen. Though the mothers nominally show their willingness to preserve their offspring, they so practically adopt a course which must lead to the early death of the children. No fewer than 424 were received, half clothed, and seven were frost bitten. One was sent from the United States in a carpet bag, another at the bottom of a basket, another in a water bucket; two came squeezed and bruised; another strongly nailed up in a box, another with a pin stuck through the flesh. The sufferings of eight infants, as well as their chance of life, had been lessened by doses of opium. It is no wonder, therefore, the report says, that three were dead when received, 23 dying, and 157 in actual disease. Most of the remainder, though in charge of country nurses, perished through the wretched constitution inflicted on them by their parents.

TURTLES are a government monopoly at the Island of Ascension, in the South Atlantic Ocean, off the coast of Africa. At this spot large basins have been constructed for the accommodation of the breeding turtles and their newly hatched young. A singular fact is stated in connection with the natural history of turtles. From the time the young turtles become the size of a dollar they disappear, and are seen no more until they return four or five hundred pounds in weight. Where the interval is spent has not been discovered.

SUCCESS OF A CO-OPERATIVE FOUNDRY.—About a year ago a co-operative foundry was established in Rochester, after the plan of those in this city and Albany. It has proved a great success. Only a trifle over $18,000 was paid in. The profits for the six months ending December 19th were $8,392.82. A dividend of twelve per cent. on the stock has been declared, payable in stock, and the balance has been divided *pro rata* among the employés, making to them 29 3-10ths per cent. upon their earnings.
